Veterinary use

Bovimec®

Etiqueta Azul 3.15%

Injectable suspension

SHAKE BEFORE USING ONLY 2 APPLICATIONS PER YEAR

Bovimec® Etiqueta Azul 3.15% provides parasite control up to 140 days*, reducing the frequency of treatments, therefore decreasing the stress in the animal.

* Varies depending on the type of the parasite.

LONG-TERM EFFECTIVENESS

Due to its thixotropic formulation, ivermectin is slowly released from the point of application extending its residual effect up to 3 times longer than ordinary ivermectin.

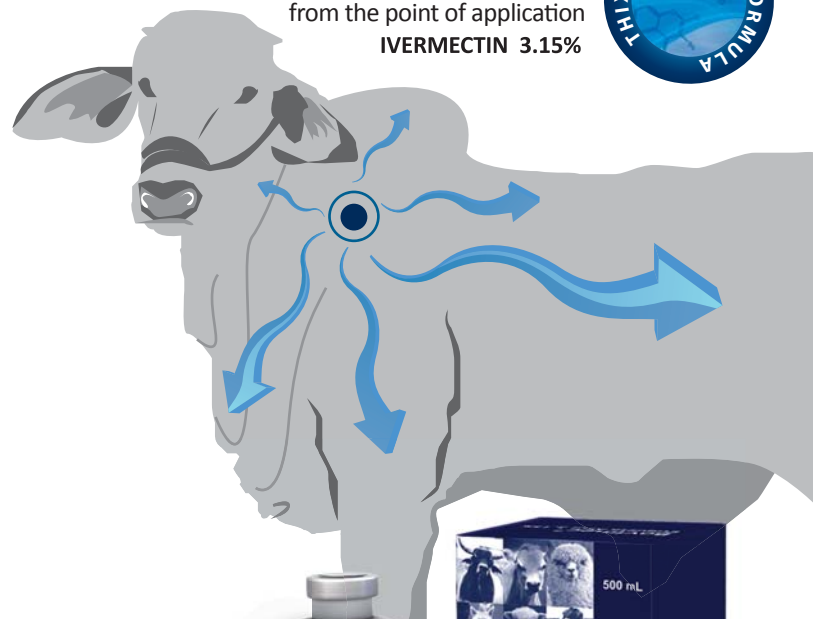

* Compared with ivermectin 1%.

TARGET SPECIES

Bovimec® Etiqueta Azul 3.15% is a product specially developed for use in beef cattle; its use is also indicated for other species: camelids, sheep and goats.

Due to its thixotropic formulation it is released slowly from the point of application
